

PRODUCT DATA SHEET

MULTI PURPOSE GREASE

MP-3 GREASE

MP3 Grease is a high quality NLGI 3 multipurpose grease suitable for both automotive and industrial applications. It is manufactured from high quality base stocks, and superior quality performance additives. It provides excellent oxidation stability, mechanical stability and water wash out characteristics to enable trouble free operation under varying conditions.

PRODUCT FEATURE

- ❖ Multi-purpose with excellent mechanical and oxidation stability.
- ❖ Good water resistant and anti-rust properties. Can be applied to equipment's under moist and water presented conditions.
- ❖ Do not contain any heavy metal, nitrite and other chemicals that do harm to human's health and pollute environment.

APPLICATIONS

It is suitable for lubricating rolling bearing, sliding bearing, wheel bearing and chassis lubrication and other friction points of general mechanical equipment's. Application temperature range: -20°C to 120°C. This grease is particularly suited for the lubrication of construction and mining equipment such as bulldozers, scrapers, loading shovel and all off highway trucks where greased components are subjected to continuous heavy loads and shock loads. This grease can be applied by gun or used in centralized systems, capable of pumping the appropriate NLGI grade.

CHARACTERISTICS		
S.NO.	PROPERTIES	MP-3 GREASE
1.	Appearance	Light Yellow
2.	Consistency of worked grease, @ 25±0.5°C, 0.1mm units (60 double strokes)	220 to 250
3.	Drop Point, °C, min.	170
4.	Soap Type	Mixed
5.	Structure	Smooth & homogeneous
